

## **BEHAVIOUR POLICY**

The Managing Student Behaviour Policy is based on teachers and students working together to create a **positive learning environment**.

When conflict or inappropriate behaviour occurs, the following steps may be taken:

1. Discussion and support to resolve the conflict and improve behaviour.
2. Identify relevant issues, consequences and strategies. This may involve parent contact.
3. If inappropriate behaviour persists, the Head of Learning Area may refer the student to a Deputy Principal who may use time out (in school suspension) or suspension as a consequence. Parent contact is made.
4. On return to class, student behaviour is monitored.

Severe breaches of behaviour may result in suspension in the first instance.
